OUR GOAL

We are passionate about this game and helping develop female student athletes. We strive to acknowledge when players are successful and do

OUR PHILOSOPHY

- ❖ We believe in **fundamentals** – this means each player will be asked to play a minimum of 2 positions. Additionally, all players will rotate through both infield and outfield drills each practice regardless of their preferred positions.
- ❖ We believe in **developing female student athletes** – this means that each player will be asked to provide grades to staff quarterly.
- ❖ We believe in **NO wasted times** – this means we encourage hustle and focus. This also implies players arriving 15 minutes prior to provided game/practice time in order to be ready to go on the field at provided time.
- ❖ We believe in **controlling the controllable**- this means attitude and effort. Regardless of performance good/bad, we expect players to foster positive attitudes and leave everything out on the field (this implies to both tournaments and practices).
- ❖ We believe in **knowledge** – this means if a skill or concept is being taught and a player does not understand, please ask. Knowledge is power.

TOURNAMENTS

SATURDAY POOL PLAY

- ❖ EVERYONE plays Saturday
 - Seeding in pool play does not matter.

SUNDAY ELIMINATION PLAY

- ❖ Coaches will determine best line-up.
 - Playing time is not a discussion (ever).
 - Our goal is to develop a team (i.e., moving runners, extra bases, execution, etc.) - not stats.

Every day is a new day! Girls will be girls. One day they may have a stellar performance and the next game they may struggle – this is inevitable. By rotating play on Saturdays, everyone is provided equal opportunity. Additionally, with a player free coaching staff all expectations are applied equally to each player on the team.
